N^o. 15. Appendix to Surgeon's Instructions

MEDICAL and SURGICAL JOURNAL of **CONVICT SHIP WILLIAM BRYAN** between the 10th day of May 1833 and the 28th day of October 1833 during which time the said Ship has been employed making a passage to Van Diemen's Land with female convicts

Nature of Disease	N ^o . of Case	Men's Names, ages, qualities. Time when and where taken ill, and how disposed of	The History, Symptoms, Treatment, and Daily Progress of the Disease or Hurt
Cholera	1	Rosanah Jackson June 11 th 1833 Woolwich Discharged cured	Complains of spasms on the abdominal muscles and extremities, nausea and vomiting, pulse 70 feeble, skin cold, stools very frequent, watery and attended with some tenesmus. At 9pm the spasms were very severe both in the abdomen & extremities, pulse feeble, skin cold, complains of headache and thirst - <i>Rx. Op. g^t ij. Calomel g^t x g^t Pil. -</i> hot Brandy and water; fomentations to the abdomen & afterwards friction with <i>Liniment: Hydrarg:</i> At 11pm spasms very severe; nausea & vomiting; considerable pain in the head, very thirsty and requests cold water to be given her. Skin hot & dry, pulse 100 full and strong, 12 th stools watery and very frequent. <i>V.S.B. ad ℥xvj.</i> Passed a terrible night, complains of great weakness and oppression at the stomach, pulse 70; 13 th skin moist, less thirst, tongue furred. <i>Hab. Ol. Ricini ℥j</i> - Fomentations continued. Passed a good night, bowels regular, skin moist, 14 th some nausea with vomiting, Pulse 80. <i>Hab. Calom: g^t vi Op: g^t i.</i> No complaint.
Cholera	2	Elizabeth Leeman Ætat 52 June 11 th Woolwich Died 30 th June Motherbank	Complained this morning of severe spasms in the hands, arms and inferior extremities, nausea and vomiting; stools very frequent & watery, pulse scarcely perceptible at the wrist, skin cold. <i>Rx. Tinct Op. g^t x. Mist. Camph. ℥ij.</i> <i>Capiat. Statim.</i> A glass of hot Brandy & water to be given her and to be continued until the Pulse rises. Vespere the spasms have been very severe during the day in the abdomen & extremities. Nausea, vomiting & purging continues, complains of headache & thirst, tongue furred, countenance

			<p>pale & dejected, pulse very feeble, skin cold, with alarming perspiration over the Abdomen & Breast. <i>Rep. Haustus ut mane.</i></p> <p>Continue the Brandy, fomentations and friction with the <i>Lin: Camphor:Comp.</i></p>
	12 th		<p>Much relieved from pain, spasms occasionally in the hands and feet, stools very frequent and watery, nausea and vomiting continues, with headache and thirst, asks for cold water, countenance pale, pulse about 50 very weak, skin cool, tongue furred. <i>Pil Op:g'ifs. Contin: Mist Camphor.</i></p> <p>Fomentations continued to the abdomen. 12 noon: <i>Rx. Tinct. Cat. zfs Mucil. g. Ar. Zij f'H.</i> <u>Vespere</u> purging still continues, no pain, pulse feeble, talks a little incoherently. <i>Contin. Haust. Astrng c Tinct Op. g'xx</i></p>
	13 th		<p>Passed a tollerable night, purging & vomiting continues but not so frequent, pulse very feeble, skin cool, has no pain, <i>Contin. Haust Astrng om ter. q.q. hora</i> and to have wine during the day.</p>
	14 th		<p>Continues very much purged with little griping, nausea and vomiting of Bilious Matter. Pulse 75 Weak, Skin Cool, Thirsty, Tongue Furred, <i>Cont. Haust. Astrng.</i></p>
	15 th		<p>Has still frequent watery motions. Pulse 75 weak, skin warm, nausea and vomiting continues with pain and oppression at the stomach increased upon pressure. <i>Applicat. Emp. Vesicat: Op:g'ifs. Calom. g'iii</i> <i>Confect. Arom. g'vi f' Pil. ij.</i> Vespere same as in the morning.</p>
	16 th		<p>No better, talking incoherently during the night, purging frequent, pulse 65 weak, skin cool <i>Rep. Haustus.</i> Blister came off during the night. Fomentations to be applied. Vespere - <i>Contin. Haustus.</i></p>
	17 th		<p>Has no pain, stools not so frequent, nausea & vomiting. Pulse about 60 weak, skin cool. <i>Tinct Op. g'xx Mistura Camphor Zjfs.</i> Vespere - <i>Rep. Haustus.</i></p>
	18 th		<p>Continues the same as yesterday.</p>
	19 th		<p>Continues getting weaker. Bowels still relaxed, pulse about 65, skin cool, nausea and occasional vomiting. <i>Rx. Tinct Op. g'xxx. Sp^t Lavand. Co. zi.</i> <i>Sp^t Ether. zi Aquæ Zij Dimid statim Alter[nate] post horas duas.</i></p>
	20 th		<p>She is very weak. Pulse about 65, skin cool, purging and vomiting continues, incoherent during the</p>

PB010394JPG		<p>21st 22nd</p> <p>23rd 24th</p> <p>25th 27th</p> <p>29th 30th</p>	<p>night. No pain. <i>Continuat[ion] Mistur: Cardiac ut heri</i> No better. <i>Contin. Mistura.</i> Passed a better night; no vomiting and stools less frequent. Pulse about 65 very weak, skin cool, to have a little wine. <i>Hab. Sulph. Quinin. gⁱi ter die Sum.</i> Slept little during the night. Pulse 68, skin cool, Bowels still relaxed. <i>Contin. quinin.</i> Continues very weak not purging, skin cool, Pulse 65 small & weak. <i>Contin. Sulph. Quinin: & wine.</i> No better - <i>Contin. quinin. & wine.</i> Passed an easy night but is very weak, pulse about 66 small & weak, skin cool - takes a little sago with wine during the day. <i>H: S. Pil Op. gⁱifs.</i> Talked incoherent during the night and seems sinking. Died about 1 A.M.</p>
Cholera	3	<p>Sarah Williams Ætat 20 June 15th England Died June 16th 1833</p> <p>16th</p>	<p>Complained this morning of severe spasmodic pain in the abdomen, purging and vomiting. Pulse about 80 weak, skin cold. <i>Op: gⁱij Mist. Camphor ζji.</i> Friction to the abdomen with the <i>Lin. Camph.</i> Three hours afterwards the spasms continuing very severe in the extremities, nausea and vomiting with very frequent watery motions, countenance pale and dejected. Pulse scarcely perceptible, skin cold, with a clammy perspiration over the body. Complains of pain in the head, very thirsty and requests cold water. <i>Rx Tinct Op. gⁱLx. Mist. Camphor ζji.</i> Hot Brandy and water. Fomentations and frictions to be applied. Vomited the medicine immediately after taken it. <i>Habeat Pil Op. ij Calomel gⁱx.</i> Has been very ill all night with the spasms in the abdomen and inferior extremities, pulse scarcely perceptible, skin cold, nausea & vomiting, features shrunk, very thirsty, requests cold water which is rejected immediately it is taken. <i>Rx. Tinct Op gⁱLx. Spⁱ Æther Sulph. ζi.</i> <i>Mist. Camphor ζifs. fⁱ Haustus.</i> Fomentations, frictions and hot Brandy and water to be continued until the Pulse rises. 1 noon she became insensible. Eyes fixed. Breathing laborious, skin cold, Pulse imperceptible at the wrist and Died at 5 P.M.</p>

PB010396JPG			<p>vomiting continuing severe with frequent water motions, countenance expressive of great agony, pulse scarcely perceptible, skin cold, considerable Headache. Thirsty.</p> <p><i>Rx. Tinct Op g^tL Mist:Camphor ℥ijfs</i> with Hot Brandy & Water and friction to the abdomen.</p> <p>15th She is very weak, complains of pain in the abdomen, pulse about 90 weak, skin cold, features shrunk, vomiting continuous - not so much purged, thirsty and complains of Headache, <i>Contin. Mist Camp:</i> with Fomentations.</p> <p><u>Vespere</u> is very low, pulse about 95, very weak, skin cold, some vomiting. Thirsty.</p> <p><i>Contin. Mist. Camphor: Pil Calom. g^{vi}. Op gⁱ ffj.</i></p> <p>16th Had the spasms severely in the extremities. Pulse 65 weak, skin cold, motions frequent & watery, nausea and vomiting continues. Thirsty.</p> <p><i>Contn. Mist: Camphor ℥ij è Tinct Op g^txL.</i></p> <p><u>Vespere</u> Complains of pain over the abdomen, much increased upon pressure. Pulse 95 full, skin very hot. Thirsty.</p> <p><i>V.S.B: ad ℥xii</i> Fomentations and afterwards a Blister to be applied.</p> <p>17th Slept some during the night. Pulse about 74, skin cool, still pain in the abdomen, vomiting occasionally. Motions frequent and watery.</p> <p><i>Rx. Tinct Op g^txL Mist. Camph. ℥iv Coch. ij om hor[a]</i> Fomentations to be continued.</p> <p>18th Appears sinking. Breathing oppressed. Pulse 60, skin cold, talks incoherently.</p> <p>Synapisms to be applied to the feet and the abdomen to be rubbed with the <i>Liniment Camph: Comp.</i></p> <p>19th <u>Vespere</u> Eyes fixed. Breathing oppressed. Pulse 60 small, skin cold.</p> <p>Died this morning at Nine O'clock.</p>
Cholera	6	<p>Mary Cook Ætat 59 June 16 England Died June 19</p>	<p>Complained this morning of many frequent watery motions, no pain. Pulse and skin natural, tongue clear.</p> <p><i>Rx. Tinct Cat: ℥fs. Tinct Op: g^{xx}Aq. ℥ijfs</i></p> <p><u>Vespere</u> seized suddenly with violent spasms in the Abdomen, Hands, Arms & Inferior Extremities with frequent watery purging, constant vomiting, severe Headache, considerable thirst, countenance pale & dejected. Pulse almost imperceptible, skin cold, with clammy perspiration over the face and Breast.</p> <p><i>Rx. Tinct Op g^tLxx Mist. Camph. ℥ijfs.</i></p> <p>Hot Brandy & water. Fomentations to the abdomen and the <i>Linimen:Camph.</i> to be applied to</p>

			<p>the extremities.</p> <p>17th Almost every part of the Body have been affected with severe spasms, motions very frequent and watery, stomach very irritable and discharges great quantities of Bile - requests cold water to be given her which is immediately rejected. Pulse scarcely perceptible, skin cold, eyes sunk.</p> <p><i>Rx. Tinct Op. g^tLx Sp^t Æther Sulph. ʒi.</i> <i>Mist. Camph. ʒifs. Cap. Statim.</i> Fomentations and frictions continued.</p> <p>Synapisms to the Feet.</p> <p><u>Vespere</u> spasms relaxed, is now insensible. Breathing laborious, pulse 80 very small, skin cold. Death seems approaching. Friction to be continued to the abdomen.</p> <p>18th Breathing oppressed. Pulse scarcely perceptible, skin cold, is insensible. Fomentations.</p> <p>At 5 P.M. she Died.</p>
Cholera	7	<p>Ann Clark Ætat 35 June 13, 1833 England Died June 24th</p>	<p>Complained last evening of very frequently purged, accompanied with griping pains, nausea, and vomiting. Pulse about 80 small and weak, skin cool, thirsty with Headache.</p> <p><i>Pil Op. g^tij Calomel g^tvii.</i></p> <p>At 10. Motions very frequent, griping pains severe, pulse small and weak, skin cool</p> <p><i>Rx. Tinct Op g^tL Mist Camph. ʒifs f^t H.</i></p> <p>16th No better, had severe spasms in the abdomen, extremities and face, nausea and vomiting, thirsty. Pulse small & weak, skin cold and clammy, considerable pain in the stomach on pressure.</p> <p><i>Rx. Tinct Op g^tL Sp^t Æther: S: ʒi Aq. ʒi f^t H.</i> Fomentations and friction with the <i>Lin. Camph.</i> Vespere spasms much abated, considerable pain on pressure, nausea and vomiting continues. Countenance pale and dejected. Pulse small and weak, skin cool, tongue furred, very thirsty. Motions very frequent and watery.</p> <p><i>App. Emp. Vesicat.</i> <i>Rx. Opii g^tifs Calomel g^tvi f^t Pil.</i> Fomentations continued.</p> <p>17th Has less pain but the vomiting continues. Pulse about 75 weak, skin cool. Thirsty.</p> <p><i>Rx. Tinct Opi g^txx Confect. Aromat: ʒfs Aq: ʒi.</i> Vespere same state as in the morning.</p> <p><i>Rep. Haust c Mist. Camph.</i></p> <p>18th Appears very low now, no pain. Pulse 78 weak, skin cool, nausea and vomiting continues, countenance dejected. Features shrunk.</p> <p><i>Hab. Calom. g^tvi Op g^tifs.</i></p>

PB010397JPG			<p>Vespere passes her motions in bed. Complains of nothing, vomiting occasionally. Pulse 70 very weak, skin cold. <i>Pil Op g'ifs with some wine and the Mistura Camphora.</i></p> <p>19th Very low, vomiting of dark coloured matter, motions not so frequent, oppression at the stomach. Pulse about 70 weak, skin cool, takes nothing but drink which is rejected immediately it is taken.</p> <p><i>Hab. Calomel g'v Op g'i f' Pil.</i></p> <p>Vespere motions very frequent. Tongue furred, still vomits whatever is given her. <i>Cont. Pil c Mist. Camph.</i></p> <p>20th Very low, countenance dejected, motions frequent and watery, stomach still irritable. Pulse about 70 weak, skin cool, features shrunk and sometimes talks incoherently.</p> <p><i>Rx. Tinct. Op. g'xxx Sp^t Æther zi Mist Camphor. ꝑiv Cap. Coch. duo om hora.</i></p> <p><u>Vespere</u> same as in the morning.</p> <p><i>Tinct Cal:zfs Tinct Op. g'xxv. Aq.ꝑifs f' Haust</i></p> <p>21st Very low, talks incoherently, skin cool, pulse very weak. Motions frequent, <i>Contin. Haust Cal: c Mistura Camphora.</i></p> <p>Vespere skin cold, pulse scarcely perceptible, talks incoherently, takes drink.</p> <p>Synapisms to be applied to the feet.</p> <p>22nd Pulse scarcely perceptible, skin cold, quite insensible.</p> <p>23rd Seems sinking.</p> <p>24th Died at One P.M.</p>
Cholera	8	<p>Susan Manners Ætat 30 Convict June 19th Downs <u>Died June 23</u></p>	<p>Has been attending her Sister Ann Clark during her illness, was suddenly seized with severe spasms in her Hands, arms and face and soon after in the abdominal muscles, nausea and vomiting. Motions very frequent & watery, considerable Headache, thirst - calls for cold water, countenance pale. Pulse about 70 small and weak, skin cool.</p> <p><i>Hab. Pil Op g'ii Calom. g'vi.</i></p> <p>the abdomen to be rubbed with the <i>Lin:Ca.</i></p> <p>20th Spasms abated and fell into a sound sleep. She now complains of pain in the abdomen, motions not so frequent, vomiting continues of Bilious Matter, headache and thirst. Pulse about 80 small & weak, skin warm, Tongue white.</p> <p><i>Op. g'ifs Cal. g'v f'j.</i></p> <p>Fomentations to the Abdomen.</p> <p>Vespere Purging very frequent.</p> <p><i>Rx. Tinct Op g'xx Tinct Cal. zfs Aqæ ꝑj.</i></p> <p>21st Has been very ill all night vomiting everything she takes with pain and oppression at the stomach,</p>

PB010398JPG			<p>thirsty, has now severe spasms in the Inferior Extremities. Motions still very frequent and watery, Pulse 68 weak, skin cold. Countenance pale. <i>Hab. Op g'ij Calom. g'v.</i> Fomentations. Vespere has been tollerably free from pain until now when the spasms have seized the Abdominal Muscles: Pulse very small, skin cool.</p> <p><i>Contin Pilul. et Liniment Camph Comp</i></p> <p>22nd Passed a better night, Pulse very weak, skin cool. No vomiting, motions still frequent, getting weaker. <i>C[ontinue] Hab. Sulph. Quinin. g'iii ter die.</i></p> <p>22nd Very weak, much purged, Pulse 68 small and weak. Thirsty. <i>Contin. Sulph. Quinin: and wine.</i></p> <p>Very weak, much purged. Pulse weak, skin cool.</p> <p>24th Thirsty. <i>Contin. Sulph Quinin c Tinct Op g'xv and wine.</i></p> <p>25th Talking incessantly all night. Pulse very weak, skin cold and is sinking fast.</p> <p>Died at 11 P.M.</p>
Desentery	9	<p>Sarah McLaughlen Ætat 22 June 18, 1833 Downs Discharged Cured June 26</p>	<p>Of spare habit of Body, has been confined in prison for 18 months nearly upon Bread and Water - has been purged for two or three days. Complains now of considerable pain in the abdomen with frequent scanty motions accompanied with tenemus. Pulse 95 weak, skin warm Tongue white and furred. Thirsty.</p> <p><i>Calom. g'vi Op:g'i Tinct Ant. g' ¼ f P. St.S.</i> Fomentations to the abdomen.</p> <p><u>Vespere</u> has had frequent scanty motions with much tenesmus and tormina and occasional vomiting. Pulse 90 weak, skin warm, very Thirsty.</p> <p><i>Hab. Ol:Ricini ʒi. Tinct Op: g'xx. f H.</i></p> <p>19th Has had fewer motions more copious and with less pain. Pulse 98 weak, skin warm. Tongue white and furred.</p> <p><i>Calom. g'v. Op. g'tii f Pil St:Sum:</i> Vespere has great pain over the abdomen with vomiting, motions frequent and scanty, very thirsty.</p> <p><i>Calom. g'vii Op. g' ifs.</i> <i>Emp. Vesicat. ad Abdom.</i></p> <p>20th Pain in the abdomen much abated, less frequent and more free. Pulse 100 weak, skin warm and moist. Tongue white.</p> <p><i>Rx. Pulv Rh. g'ij P. Ipec. g'ii f Pil.</i> Vespere has been tollerably well all day. Motions less frequent.</p> <p><i>Contin. Pilul ut Antea</i> Vespere Continues better. 3 motions. <i>Contin. Pilula.</i></p> <p>22nd Passed a good night. Bowels rather relaxed. Pulse</p>

			<p>96 very weak. <i>Hab. Sulph Quinin. gij ter die sumendus.</i> Discharged of the Sick List.</p>
Desentery	10	<p>Maria Clark Ætat 40 August 9th at Sea Discharged of[f] the List</p>	<p>Complains of pain over the Abdomen and right Hypochondriac region increased upon pressure, Bowels very much relaxed. Pulse 86 weak. Tongue white, skin moist, very thirsty. <i>Rx. Tinct Op g'xxv T. Rh. zij.</i> <i>Aq. ꝑij f' H.</i> Fomentations and Barley Water for Drink. 8 P.M. Symptoms more severe. <i>V.S.B ad ꝑxii. Cal: g'iv. Op. g'i f'</i> 10th Passed a bad night with severe nausea and vomiting. Pain very much exercised and constant. Motions very frequent, scanty and accompanied with tormina & tenesmus. Pulse 86 weak, skin cool. Thirsty. <i>App. Emp. Vesicat. ad Abdomen:</i> <i>Rx. Tince Op g'xxv. T. Rh: zij Aq. ꝑij.</i> Vespere the Desenteric symptoms more severe. <i>Ol. Ricini ꝑi.</i> 11th Nausea and vomiting considerably abated. Pain in the abdomen less. 4 motions during the night more freeness. <i>Haustus ut heri & Barley Water</i> Vespere Motions frequent with much pain. <i>Hab. Calom. g'v. Op:g'i.</i> 12th Has had a bad night with vomiting & motions during the night, watery and accompanied with tormina. Pulse 86 weak. <i>Hab.: Calom. g'iv. Opi g'i f': Pil.</i> Vespere Better. Mouth sore. <i>Rep^t: Haustus: ut antea.</i> 13th Had a good night. Motions fewer and freer, no vomiting, skin cool. <i>Rx. Pulv. Rh. g'v. Ipecac: g'ij f' Pil N^o 11</i> Vespere 4 motions - <i>Pil. Op. g'i.</i> 14th 6 motions with some tormina. Vespere <i>Contin. Pilulas.</i> 15th Mouth very sore, only 3 motions and without pain. Pulse 86 weak. <i>Rx. Sulph Quinin. g'ij bis die.</i> 16th Passed a good night. Bowels regular. <i>Contin. Sulph. Quin: ut antea</i> 18th Continues improving. Bowels regular. <i>Contin. Sulph. Quinin.</i></p>

Mania	11	<p>Frances Holliday Ætat 29 August 18th at Sea Died August <u>29, 1833</u></p>	<p>Suddenly leaped out of Bed, roaring loud incoherent Language and making violent exertions of strength. Wildness of countenance. Pulse 125, has made no complaint since she has been on Board.</p> <p><i>V.S.B. ad 3xvi</i> fainted and no more Blood could be taken. <i>Rx. T: Op. g^tLxxx Mist. Camph. 3ifs f^t H.</i></p> <p>19th Slept some during the night and is now sensible, complained of headache. Pulse 106 weak - skin cool. Bowels constipated.</p> <p><i>Hab. Mistur: Cathart:</i> Vespere Continued tollerably well until the afternoon when she became as bad as the previous evening screeching violently. Pulse 120 weak, answers questions - put the strait waistcoat on her, shaved her head and applied a Blister to the nape of the neck.</p> <p><i>Rx. Tinct. Op: g^tLxxx Mist. Camph. 3ifs.</i></p> <p>20th Passed a bad night roaring almost constantly and maliciously inclined to some of her mess mates. Pulse 120, answers questions, complains of no pain.</p> <p><i>Hab. Calom: g^tx. et Mist. Cathart.</i> <u>Vespere</u> <i>Tinct Op. c Mist. Camph. ut antea.</i></p> <p>21st No sleep, very violent during the whole night but seems now very much exhausted.</p> <p><i>Rep. Calomel ut antea.</i> Vespere Continues in the same state. <i>Rx. Tinct Op: g^tLxx T: Dig: g^txxx. Aq 3ifs iij.</i></p> <p>22nd Passed a bad night. Answers questions, still roars incoherently</p> <p><i>Rx. Mist. Cathart.</i> Vespere <i>Rep: Haustus Anod.</i></p> <p>23rd No sleep, refuses her food talks incoherently, continues mostly in a sitting posture, refuses medicine.</p> <p><i>Hab: Eneme Lax.</i></p> <p>24th Continued in the sitting position all night, refuses everything offered her, talks incoherently. Pulse 100 weak, skin cool.</p> <p><i>Contin. Mist. Cathart.</i></p> <p>25th Continues in the same state. Bowels obstructively confined. Refuses everything offered. Pulse 105 weak.</p> <p><i>Hab. Enemet. Lax.</i></p> <p>26th Passed a Bad night, is now very composed and only answers questions, skin cool. Pulse 108 weak.</p> <p><i>Rep: Enemet. Lax.</i></p> <p>27th Continued quiet all night, talks little but incoherently, refuses everything. Pulse 110 very weak.</p>
-------	----	---	---

			28 th 29 th	Took little Barley Water during the night but is gradually sinking. Pulse small and weak. Died at 4 P.M.
Gastritis PB010400JPG	12	Mary Ann Lee Ætat 22 Sept 6 th at Sea Cured Sept 12 1833	7 th 8 th	Complains of considerable pain in the region of the stomach increased upon pressure with incessant vomiting. Pulse 108 weak, skin warm, very thirsty, Bowels rather confined - Catamenia regular. <i>Hab. Pil. Calom. g'v.</i> Fomentations kept constantly to the abdomen. <u>Vespere</u> pan very severe and the abdomen very tender on pressure. Pulse 110, thirsty and rejects everything immediately it is taken, no motion. <i>V.S.B. ad ℥xvj - App. Emp. Lyttæ.</i> <i>Repetat Pil Calom.</i> Felt considerably relieved after the <u>Bleeding</u> and passed a tollerable night. Blister rose well, no vomiting and Febrile symptoms much abated, two motions. Ordered Sago for dinner with Tea and Barley Water for Drink. <u>Vespere</u> Pain and Febrile symptoms entirely subsided. Passed a good night and seems perfectly convalescent. Discharged of the Sick List
Erysipelas	13	Mary Harwood Ætat 22 Sept 16 at Sea <u>Cured Oct. 2, 1833</u>	17 th 18 th	Was attacked during the night with shiverings succeeded by heat, headache & restlessness, her Pulse now 110 & soft, skin hot and dry. Tongue white, no appetite for food, but has considerable thirst. Bowels rather confined. Catamenia irregular. Weather has been rainy and imputes her illness to getting wet. <i>Hab: Calom: g'iv.</i> <i>Sulph. Mag: ℥vi Post horas duas.</i> Passed a restless night. Complains of considerable heat of the face which is of a bright red colour and swollen, has considerable fever Pulse 115 soft Bowels relaxed and she now seems inclined to sleep. <i>Rx. Sulphat: Mag. ℥i.</i> <i>Tart Antim. g'i.</i> <i>Aquæ ℥viii M</i> <i>Cujus Sumat Cyath Venesum om quarta hora.</i> Passed a bad night, redness and swelling increased and has spread over the head which has a smooth shining appearance, the florid red disappears on pressure but returns immediately the finger is removed, the Eyelids so tumid that she cannot see

PB010401JPG			<p>and her countenance is exceedingly disfigured. Pulse 118 full, skin soft, hot and dry. Tongue white & dry, and says she is very thirsty, was Delirious occasionally.</p> <p><i>V.S.B. ad ℥xx.</i></p> <p><i>Contin. Mist. c Tart: Ant: ut Antea.</i></p> <p>Vespere says she feels better, the tumefaction & redness diffused over the head & neck. Febrile symptoms somewhat abated.</p> <p><i>Contin. medicament.</i></p> <p>19th Passed a bad night talking incoherently. Pulse 115 soft, skin cooler & has less thirst.</p> <p><i>App: Emp: Ves: ad nuchæ.</i></p> <p><i>Contin. Mist: ut Antea.</i></p> <p>20th Had a bad night, her language is sometimes incoherent. Pulse 118 soft, skin cool. Tongue more moist, there are several vesications containing a serum fluid.</p> <p><i>Hab: Calom. gⁱⁱ</i></p> <p><i>Sulph. Quin: gⁱⁱⁱ ter die sum:</i></p> <p>21st Complains of severe pain over the abdomen during the night which was relieved by fomentations, the vesications are discharging an irritating fluid, the swelling is subsiding, has now her sight, her Pulse 118 soft, heat of skin natural. Tongue cleaning & moist. Bowels open.</p> <p><i>Contin: Sulph: Quinin.</i></p> <p>22nd Passed an easy night, swelling & redness diminishing. Pulse 105 weak, skin cool. Tongue clean, no motion.</p> <p><i>Hab: Calom: g^{iv}.</i></p> <p><i>Contin: Sulph. Quinin:</i></p> <p>23rd Continues favourable.</p> <p><i>Contin. Sulph. Quinin.</i></p> <p>24th Is convalescent but feels very weak, to have wine, glass of wine twice a day with a nutritious Diet and the <i>Sulphate of Quinin.</i> continued until she gains strength.</p>

PB010404JPG

On the 23 of May we commenced receiving our Prisoners on Board at Woolwich, daily until the 10th of June when we had on Board 100 from the different parts of the Country and 30 from the London Gaols On the 8th a Diarrhœa accompanied with considerable fever was very general amongst them (chiefly the country women). On the 11th 2 cases of Cholera occurred, on the 15th 4, on the 16th 1, on the 19th 1 which cases were the most important that appeared during the voyage. The Disease was ushered in, in the following manner. Weakness, a griping pain in the Bowels, sometimes increased upon pressure, nausea and vomiting with frequent watery motions, the Pulse became small & feeble scarcely perceptible at the Wrist, skin cold & dry, considerable thirst, great internal heat, sometimes first in the abdominal muscles, in other cases commencing in the Calves of the Legs, Thighs, Arms, fingers and muscles of the face. Cold sweats appeared over the face & Breast - the countenance became collapsed and expressive of great pain, the eyes dull & sunk, the face and Lips livid. Breathing difficult, the purging and irritability continued, incessant calls for cold water which was rejected immediately, the spasms began to relax she became insensible with her Eyes fixed and Death terminated her sufferings.

Method of Cure - was to cause a reaction, determine to the surface and relieve the spasms & evacuations by the exhibition of Opium Calomel and other stimulants. Hot Brandy & Water, Fomentations, Frictions and wrapping the Patient in warm Blankets, & immediately the Pulse rose I had recourse to Venesection.

This disease was solely confined to the Prisoners not affecting the free woman or ship's company which may be accounted for by change of a Prison Diet to the very full they receive immediately on coming on Board.

The Case of Mania occurred in a Female of the middle age excentric disposition, she was attacked suddenly at night but for thurther remarks, I must refer to her Case in the body of the Journal.

The Prisoners continued exceedingly healthy during the whole voyage, they were allowed on Deck all Day and employment given them. The Prison was kept clean by Dry holystoning at all times the weather would admit of it, and free ventilation by means of Windsails was strictly attended to. The weather was extremely favourable until the latter part when we had it cold & wet - at this time a few Catarrhal Cases were entered on the Sick List which were cured in the usual manner by Purgatives Antimonial Diaphoretics Diluents and a mild Regimen.

Thos Robertson (B)
Surgeon Superintendent
