Pulv.</i></p> <p>May 3rd Much the same, lies very quiet, occasionally picking its nose and fingers.</p> <p><i>Pergat</i></p> <p>4th The child is somewhat better this morning, eats freely.</p> <p><i>Idem</i></p> <p>7th Infant worse this morning, lies still, constantly picking its nose.</p> <p><i>Idem</i></p> <p>11th Child is alive and that is all, it has been sinking gradually since last evening, to have Stimulants administered, but it cannot be expected to survive long.</p> <p>12th Moribund. 1 P.M. Gradually sunk and expired.</p>

<p>PB010272</p> <p>Marasmus</p>	<p>5</p>	<p>Mary Ann Calligan Æt 18 months Convict's child 4th May 1852 at Sea' Died</p>	<p>This little girl when brought to me for medical treatment, presented a miserable and emaciated appearance suffering from "Marasmus" and Bulimia", appetite inordinate eating the allowance for two grown up people if allowed, skin dry. Bowels very much relaxed evacuations somewhat dark and very offensive.</p> <p><i>Rx Hyd: cum Crete gr if</i> <i>Rhei rad: Contr: gr ij</i> <i>Zingib: rad: Contr: gr ifs M ter in die</i></p> <p>10th May. Is worse this morning and is ill as it can well be. Constantly picking its nose.</p> <p><i>Idem</i></p> <p>15th Much the same, is still much purged, motions extremely offensive. Infant as low as possible.</p> <p><i>Cont'</i>.</p> <p>21st Child still alive, though very ill.</p> <p><i>Cont'</i>.</p> <p>24th This child is much worse this morning, and not likely to last long.</p> <p><i>Cont: Remedia</i></p> <p>26th Is gradually sinking. Vespere Moribund 27th Expired.</p>
<p>Dysentaria</p> <p>PB010273</p>	<p>6</p>	<p>Bridget Lyons Æt 42 Convict 6th May 1852 at Sea Died</p>	<p>The subject of this case is an old woman of broken-down constitution from age and mental anxiety & of a Phlegmatic Temperament, presented herself for medical treatment complaining of being frequently purged attended with tormina and much straining when at stool, with tenderness of abdomen increased on pressure, and extreme irritability of stomach. Pulse frequent and small. Tongue coated with a dark fur, skin dry. To have</p> <p><i>Olei Ricini ℥j ĩ</i> <i>Tincturæ Opii ʒ xxv ĩ</i> <i>Pulv Doveri H.S. Sumend.</i></p> <p>7th May. Much purged during the night, in other respects the same. <i>Hydr. Chlorid: gr v St^m.</i></p> <p><i>Pulv Doveri gr v bis in die.</i></p> <p>8th Feels somewhat relieved, had some sleep last night, & less purging. <i>Idem</i></p> <p>9th Feels better, slept indifferently, and feels very weak this morning.</p> <p><i>Rept' Pulv: bis in die</i> <i>Rx. Tnc Opii ʒ xxv ĩ</i> <i>Mist: Camphoræ ℥ifs M H. Somni</i></p> <p>10th Was frequently purged during the last twenty-four hours, evacuations slimy and mixed with blood. Pulse quick small and hard, much thirst, mouth dry and clammy.</p> <p><i>Rx. Olei Ricini ℥i cum</i> <i>Træ Opii m xx St^m.</i> <i>Rept: Haust: Opii H.S.</i></p> <p>11th Still much purged, slept well last night.</p> <p><i>Pulv doveri gr v bis in die</i> <i>Pulv doveri gr x H.S.S.</i></p> <p>12th Complains of severe pain in abdomen with much straining when at stool, motions scanty and of the same character. <i>Emp'.</i> <i>Emplast Lyttæ pars dolente</i></p> <p><i>Rx Olei Ricini ℥i ĩ</i> <i>Tinct: Opii ʒ xx St^m</i></p>

<p>PB010274</p>		<p><i>Rept^r Pulv: doveri H.S.S.</i> 13th Frequently purged, less straining feels very weak. Blister rose well & there is less pain in abdomen. <i>Rx Misturæ Gentianæ Comp: ℥j ċ</i> <i>Confect: Aromaticæ gr xv ℥</i> <i>Fiat Haustus ter in die repetendus.</i> 14th Woman extremely ill this morning. Tongue foul. Bowels not open since last evening, though a frequent desire to go to stool with much straining. <i>Rx. Olei Ricini ℥j ċum</i> <i>Tinct: Opii η xxv St^m.</i> Arrowroot & farinaceous food to be used. 15th Woman a good deal purged during the night and is rather exhausted. Pulse 75 soft. Tongue furred had an opiate early this morning and is now asleep and quiet. <i>Repet^r. Haust: Tonic:</i> 16th This poor woman was much purged during the night and is very weak and low this morning, to have. to have Wine and Arrowroot ad libitum. <i>Mist. Cretæ ℥j ċ</i> <i>Tnc Opii η xv ℥ ter in die</i> 17th <i>Idem. Cont Mist ut heri</i> 18th Is somewhat better this morning, passed a good night – to have some farinaceous food. <i>Cont. Mist:</i> 19th The same as last report. Bowels open twice. <i>Cont. Mist:</i> 20th Woman has been a good deal purged the last twelve hours, and is at present very weak and low. <i>Pergat</i> 21st Woman has done very well up to 3 o'clock A.M. Since which time she has been purged three times, and sick at Stomach. <i>Emp^r. Empl Sinapis Scrobiculus</i> <i>Cordis. Rept: Mist: ċ Conf. Aromat: gr x in sing: dosis.</i> 22nd She slept well and has only been purged once during the night. Tongue brown and dry, skin dry. <i>Cont: ut heri.</i> 22nd Vespere Feels a little better purged twice during the day, complains of pain in abdomen. <i>Tinct: opii η xx in</i> <i>Mist: Camp ℥ifs St^m.</i> <i>Emplast Sinapis: part. dolent.</i> 23rd Woman slept well, was purged twice, obtained some relief from the Sinapism, to have <i>Haustus Rhei ℥j ter in die et Vini Rubrum ℥iv in die</i> 24th Woman extremely low, and will make use of no food, only takes wine and water and a little gruel occasionally. Pulse 65 soft, skin cool. Bowels open twice during the night. <i>Rept. omnia ut heri</i> 25th Woman very low indeed, Tongue very red, skin dry, has been purged several times involuntarily, has taken very little sustenance, only a little wine diluted and arrowroot, she is now extremely low. Pulse 80 small and wiry. Tongue red, mouth clammy, skin dry. Habeat <i>Rx Conf: Aromatica ℥j</i> <i>Tinct: Opii ℥ij</i> <i>Tinct: Lavandulæ ℥ij</i> <i>Aqua Camphoræ ℥iv ℥ fiat misturæ</i> <i>Cujus Capiat coch: magna ij 3^{tis} horis</i></p>
-----------------	--	---

PB010275

26th Much the same as last report. Pulse 75 soft. Bowels open twice, has eaten a little arrowroot congee with wine. Tongue very red.

Idem

27th Woman purged four times in the night, but feel rather better. Tongue still very red, eats nothing but arrowroot and wine.

Rept': Mist: ut antea

28th Is very low this morning – Bowels open twice.

Rept': Mist: ut heri

29th She is still extremely low, was purged four times within the last twenty-four hours – Tongue clean but red and flabby. Pulse 75 soft – skin rather dry – passes everything involuntarily

Rept': Medicament: ut antea

30th Continues very low still and was much purged during the night – but it has been checked by repeated doses of “*Mistura Creta*”. Tongue flabby and red. Pulse 75 thready. Countenance anxious.

Idem

31st Has been three times purged, in other respects much the same as last report.

Idem

June 1st *Idem*

2nd Feels better, purged once, complains of slight cough.

Idem

June 3rd Woman still purged frequently during the night and is very low this morning, and not likely to last long. Pulse 70 very weak Tongue red, skin shrivelled and dry, is supported with a little wine in arrowroot congee occasionally.

Pergat

4th Continues much the same as yesterday, purged four times during the past night, is much troubled with cough and reduced to the lowest ebb. She has taken food some arrowroot and wine also egg drink which seems to remain on her stomach.

Idem

5th Slept well last night, has been purged only once last night, sat a little this morning.

Idem

6th She is as low as she can be and to all appearance gradually sinking. The purging is stopped.

Idem

7th Bowels open only once -Tongue still very red and polished 7 studded with many raised papillæ, skin feels moister, and on the whole she is a shade better.

Idem

5 P.M. Complains of considerable pain in abdomen. Bowels open once – To have
