

Surgeon's Journal of Her Majesty's Female Convict Ship Arab  
 Mr William ROGERS Surgeon  
 from 20 November 1835 – to 29 April 1836  
 Adm. 101/4/3

**Copy of the sick list of the Arab Female Convict Ship**

When Put On Sick List	Name	Age	Quality	Disease or Hurt	When Put Off Sick List	How Disposed Of
Dec <sup>r</sup> 10 1835	Elizabeth Murray	19		Asthma	Dec <sup>r</sup> 15	To prison off List.
Dec <sup>r</sup> 10	Alice Dowland	23		Ulcus	Febr <sup>y</sup> 21	D <sup>o</sup> .
Dec <sup>r</sup> 11	Ann Smith	40		Diarrhoea	Dec <sup>r</sup> 15	D <sup>o</sup> .
Dec <sup>r</sup> 11	Lucy Rabbits	23		D <sup>o</sup> .	Dec <sup>r</sup> 15	D <sup>o</sup> .
Dec <sup>r</sup> 11	Ann Callanan	21		Chronic Rheumatism	Jan <sup>y</sup> 29	D <sup>o</sup> .
Dec <sup>r</sup> 11	Ellen Boyd	25		Diarrhoea	Dec <sup>r</sup> 15/35	D <sup>o</sup> .
Dec <sup>r</sup> 12	Christiana Hawklend	45		D <sup>o</sup> .	Dec <sup>r</sup> 16	D <sup>o</sup> .
Dec <sup>r</sup> 13	Mary Smith	28		D <sup>o</sup> .	Dec <sup>r</sup> 15	D <sup>o</sup> .
Dec <sup>r</sup> 15	Isabella Jackson	25		D <sup>o</sup> . & Epilepsy	Dec <sup>r</sup> 16	D <sup>o</sup> .
Dec <sup>r</sup> 13	Margaret Walker	22		Catarrh	Dec <sup>r</sup> 16	D <sup>o</sup> .
Dec <sup>r</sup> 14	Susan Fitzgerald	19		Puerperal Fever	Dec <sup>r</sup> 25	Died
Dec <sup>r</sup> 17	Jane Marshall	16		Venereal Ulcers	Jan <sup>y</sup> 6	Off List
Dec <sup>r</sup> 19	Sarah Cooper	33		Cynanche Tonsillaris	Dec <sup>r</sup> 23	D <sup>o</sup> .
Dec <sup>r</sup> 23	Ann Powers	25		Pleuritis	Jan <sup>y</sup> 14	D <sup>o</sup> .
Dec <sup>r</sup> 24	Mary Jones (2)	25		Obstipatio	Dec <sup>r</sup> 28	D <sup>o</sup> .
Dec <sup>r</sup> 27 1836	Jane Horton	30		Catarrh	Dec <sup>r</sup> 31	D <sup>o</sup> .
Jan <sup>y</sup> 5	Emma Marland	19		Pleuritis	Jan <sup>y</sup> 14	D <sup>o</sup> .
Jan <sup>y</sup> 9	Emma Cousins	23		Contusion shoulder etc	Jan <sup>y</sup> 23	D <sup>o</sup> .
Jan <sup>y</sup> 16	Rachel Becket	18		Ulcer left Tibia	April 25	D <sup>o</sup> .
Jan <sup>y</sup> 18	Mary Jones (4)	18		Icterus	Jan <sup>y</sup> 28	D <sup>o</sup> .
Jan <sup>y</sup> 25	Julia Maria Cramp	23		Scorbutus	Febr <sup>y</sup> 14	D <sup>o</sup> .
Febr <sup>y</sup> 21	Ann Hampson	22		Febres	March 22	D <sup>o</sup> .
Febr <sup>y</sup> 21	Catherine Monaghan	35		Obstipatio	March 15	D <sup>o</sup> .
Febr <sup>y</sup> 21	Emma Marland	19		Abscess right axilla	Febr <sup>y</sup> 25	D <sup>o</sup> .
Febr <sup>y</sup> 21	Emma Cousins	23		Obstipatio	March 15	D <sup>o</sup> .
Febr <sup>y</sup> 28	Eliz <sup>th</sup> Murray	19		D <sup>o</sup> .	March 8	D <sup>o</sup> .
Febr <sup>y</sup> 28	Mary Williamson	25		D <sup>o</sup> .	March 5	D <sup>o</sup> .
Febr <sup>y</sup> 29	Mary Brierly	19		D <sup>o</sup> .	March 6	D <sup>o</sup> .
March 1	Emma Marland	19		D <sup>a</sup> & Abscess	March 15	D <sup>o</sup> .
March 2	Eliz <sup>th</sup> Blacklock	21		Catarrh	March 22	D <sup>o</sup> .
March 2	Jane Marshall	16		Gonorrhoea & Syphilis	April 25	D <sup>o</sup> .
March 4	Agnes Calder	36		Obstipatio & Pleuritis	March 22	D <sup>o</sup> .

**Medical and Surgical Journal of Her Majesty's Convict Ship *Arab* between the  
20 November 1835 and the 29 April 1836 during which time the said ship has been  
employed Transporting 132 Female Convicts & 17 Children from Woolwich to  
Hobart Town, Van Diemen's Land**

Nature of Disease	No. of Case	Men's Names, Ages, Qualities, Time when and where taken ill, and how disposed of.	The History, Symptoms, Treatment, and Daily Progress of the Disease or Hurt.
<p style="text-align: center;">Asthma</p> <p style="text-align: left;">PA290190JPG</p>	1	<p style="text-align: center;">Eliz<sup>th</sup> Murray Ætat: 19 Woolwich 10<sup>th</sup> December 1835 Thermom° 52°</p> <p style="text-align: center;">15<sup>th</sup> Dec<sup>r</sup>. Discharged from List.</p>	<p>Has been plethoric, but is much emaciated having been four months in prison, says she is very subject to colds, breathing difficult. Tongue moist, coughs violently at times little or no expectorate, complains of severe headache &amp; weakness, with pain in the chest, pulse 84, small &amp; tense. Bowels regular, catamenia stopped 3 months. Rx. <i>Hydrag. Submur. gr. iv. Extract. Colocynth. C. gr. x. M. ft. Bol. Stat. S. Emplast. Lyttæ. Thoracis quadolet. impon.</i></p> <p>11<sup>th</sup> Breathing a little easier, blister rose well, cough still very urgent, little or no expectoration, Tongue moist, skin soft, pulse 96 regular, Bowels open, complains of headach, Rx. <i>Mistura Salina ℥ vj. T.[Fol] Scilla ℥j. Vin. Antimon ʒ ifs Syrup. ℥ ifs. M. ft. Mist. cochlear. ij. magn. 4<sup>th</sup> quaque hora Sumend. Aqua hordei propotu ad libitum.</i></p> <p>12<sup>th</sup> - Breathing much easier this morning, expectoration freer; blister healing. Tongue moist. B. slow. <i>Hab. Pil. Cathartic No. ij. statim postea mistura ut heri.</i></p> <p>13<sup>th</sup> - Cough less, expectorates freely and can take a full inspiration with ease. B. opened twice. <i>contin<sup>r</sup>. Mist. expectorans ut antea</i></p> <p>14<sup>th</sup> continues mending - continue</p> <p>15<sup>th</sup> no complaint. Disc<sup>d</sup>. from List.</p>
<p style="text-align: center;">Ulcer</p>	2	<p style="text-align: center;">Alice Dowland Æt. 23 Convict 10<sup>th</sup> Dec<sup>r</sup>. 1835 Woolwich Therm. 50°</p> <p style="text-align: center;">Jan<sup>y</sup> 18<sup>th</sup> 1836 At Sea Therm. 68°</p> <p style="text-align: center;">21<sup>st</sup> February Discharged from List</p>	<p>Has a deep foul ulcer on the inside of the left hip, about 6 inches in circumference, says it commenced as a small pimple close besides the labia pudendis, has concealed it four months, and would not complain to the Surgeon of Salford Gaol least she should have been kept longer in prison, has had the venereal Disease three times - <i>cataplasm commun. bis, die applicatur</i> &amp; to keep herself scrupulously clean.</p> <p>17<sup>th</sup> - ulcer cleaner but still very extensive, continue Cataplasm</p> <p>Altho' the ulcer is somewhat contracted it is foul at the bottom, healing slowly. <i>Hab. pilula Hydrarg. j mane que nocte continue Cataplasm ut antea.</i> To have flour etc. in lieu of Salt Meat.</p> <p>230<sup>th</sup> - Breath a little tainted. Ulcer contracting &amp; looking clean. <i>Sol. Magnes. Sulph. ℥iv. statim. S. continue cataplasm.</i></p> <p>21<sup>st</sup> Febr<sup>y</sup> - From the last report till today she has taken 6 more of the <i>pil. Hydrarg.</i> with occasional Laxatives. the Ulcer being quite well. Discharged from List, as she seems much Debilitated, cont. flour etc.</p>

<p>Chronic Rheumatism</p> <p>PA290191JPG</p>	<p>3</p>	<p>Ann Callanan Ætat:21 Convict 11<sup>th</sup> Dec<sup>r</sup>. 1835 Woolwich Therm. 51°</p> <p>Temp. 82° Disch<sup>d</sup> from List 20<sup>th</sup> Jan<sup>y</sup> 1836 Cured.</p>	<p>Has for this some time passed, appeared weak in her step when walking, &amp; apparently with difficulty could drag one leg after the other, - on enquiring she says that she contracted her complaint in prison and until the time she left Newgate had been under medical treatment there; but as she wished to get away with her companions she told the medical attendant she was nearly well. today she is unable to get up complains of severe headach, and pain &amp; stiffness in the right hip and Knee joints, catamenia left her four months, her person is weak and emaciated to a degree.</p> <p><i>Rx. Extract, Colocynth: c. Gr. v. Hydradrg. Submur Gr ij Mft Bol. Stat. Sumend. Thea tepid ad ad libitum.</i></p> <p>Vespere – seems to think herself a little better but the severe pain in the sinciput continues. B. once opened, arterial action but little affected. Skin moist. Tongue somewhat furred. <i>Emplast. Lyttæ. os frontis qua dolet imponatur. Diluents etc.</i></p> <p>12<sup>th</sup> Pain in her Knees etc. easier and that in her forehead much relieved. Bowels open, dressed the blister.</p> <p><i>Hab. Pulv. Ipec. comp. Gr xv hora somni</i></p> <p>20<sup>th</sup> – Continues mending, bowels regular. Skin moist. Tongue clean, appetite good. <i>Omitt<sup>r</sup>. medicamenta</i></p> <p>29<sup>th</sup> Jan<sup>y</sup> 1836 – From last report many occasional Laxatives have been given. She is still weak but no complaint. Disch<sup>d</sup> from List Therm: 82°</p>
<p>Partuition</p> <p>PA290192JPG</p>	<p>4</p>	<p>Susan Fitzgerald Ætat 19 Convict 14<sup>th</sup> Dec<sup>r</sup> 1835 Woolwich Therm. 52°</p>	<p>Was taken with Labour pains last night and continued until this morning about 11 o'clock when she was delivered of a stillborn child in a state of purification, apparently having been dead a month or six weeks, this was a footling case, the right foot presenting first, as it was a protracted labour and no expulsion pains, at the same time the patient much exhausted the two arms were brought down &amp; I delivered her of the child, had gruel &amp; a little wine negus to keep up her strength during Labour.</p> <p>Vespere. – Placenta still retained &amp; no expulsion pain since she was delivered this morning, Lochia moderate, has taken some Sago with <i>℞ifs Vin Rub.</i> Pulse 82, regular. Tongue furred a little, a gentle Diaphoresis pervades the body.</p> <p>15<sup>th</sup> [Sleaped?] but very indifferent, placenta in status quo endeavoured to persuade her to allow me to take out the consanguine but she is determined &amp; obstinate. Bowels not opened since the 13<sup>th</sup> flooding at intervals, Complains this morning of pain in her bowels &amp; loins, no expulsive pain since the child was born, pulse 97. Tongue dry.</p> <p><i>Hab. Ol: Ricini ℞ j stat.</i> Diluents. Sago etc.</p> <p>Vespere – Had been very quiet during the day pulse 87, soft and regular, Tongue a little parched, Bowels not yet moved, placenta not yet detached. <i>Hab. Sol. Magnes. Sulphat. ℞ ij. cras mane si opus sit.</i></p> <p>16<sup>th</sup> – No alteration whatever since yesterday Evening. Bowels not yet moved. Gruel. Sago, etc</p> <p>17<sup>th</sup> – Passed a watchful night vomiting at times, had <i>℞ j Ol: Ricini</i> last evening and rejected it, again about 11P.M. has had an Enema which had but very partial effect, at midnight <i>℞ ij of the Sol. Magnes Sulph.</i> was administered,</p>

<p>PA290193JPG</p> <p>Puerperal Fever</p>		<p>18<sup>th</sup> Dec<sup>r</sup>. Therm: 49°</p> <p>20<sup>th</sup> Dec<sup>r</sup> 1835 Woolwich Therm. 51°</p> <p>22<sup>nd</sup> Dec<sup>r</sup> 1835 Off Sheerness Therm. 50°</p>	<p>today she says she has no pain, Bowels freely opened this morning pulse 83. Tongue &amp; skin moist after-birth still retained. To have a little preserved soup or Sago which ever she could relish.</p> <p>Nearly in the same state as yesterday but on the whole seems better as she only complains of weakness this morning. B. opened once scantily, placenta in status quo, little or no discharge. Sago&amp; [wine?]</p> <p>Vespere – Has had singultus at intervals today, seems very weak &amp; exhausted, has had little or no discharge these three days, about midday the funis of the placenta came away separating when she turned in bed, seems to have no pain and only complains of her heart &amp; weakness. Tongue clean and rather dry, pulse 98 small and easily compressed. Skin moist, has had Sago with a little port wine, Tea etc as she complained of Heartburn this afternoon, <i>Gr xv of Magnes Subcarbonate</i> was given her. B. not opened today.</p> <p>19<sup>th</sup>. Passed a watchful &amp; restless night, rejects almost every thing she makes use of, complains only of weakness. Tongue clean &amp; rather dry, pulse about 96, soft &amp; weak. Skin moist, has cold rigors at times which are relieved by warm tea. B. opened twice scantily this morning (very foetid). <i>Hab. Ol: Ricini ℥j statim.</i> Beef Tea. At three o'clock this morning the placenta came away with a few pains, as she as very cold &amp; weak ℥ ifs</p> <p>Brandy in hot water was given</p> <p>9A.M. complains of after pains &amp; weakness, has no appetite, pulse 96, small. Skin moist. Tongue clean &amp; dry, increased thirst. Bowels not opened.</p> <p><i>Rx. T.K. Opii gtt xx. æther Antim ℥fs Aq. Cinnam. ℥ ij ℥ ft haust. Stat. Sum.</i> Beef Tea</p> <p>21<sup>st</sup> Very weak &amp; low this morning, the abdomen has felt all along not supernaturally tense, only over the region of the uterus it feels hard and distended but circumscribed, she sleeps little or none. Bowels opened one, the after pains continue but not so severe, pulse 100, small &amp; easily compressed, little or no Lochial discharge today – Sago with a little wine or Beef Tea if she prefers it.</p> <p><i>Repet<sup>r</sup> Haust. Anodyne ut heri</i></p> <p>Vespere – After pains continue but not so severe – <i>Repet<sup>r</sup>. haustus</i></p> <p>Sinking progressively, pulse 100 small and weak. Tongue foul and dry this morning. Skin soft but hot, no complaint whatever, could not sleep altho' <i>mxxvij Tinct Opii with zj æther nitric</i> was administered last night at bedtime. Lochia nearly disappeared. To have thin Sago with a little port wine. Beef Tea if she can take it as a drink. Bowels not opened.</p> <p>Vespere. Has been low all day and at times incoherent and restless, complains but little and that of some pain in the region of the uterus, when she coughs, or on pressure. Tongue dry but clean, pulse 102, small &amp; weak. Skin soft &amp; hot. Bowels not moved today, she rejected today everything given her. <i>Repet<sup>r</sup>. Haust. Anodyne ut antea</i></p> <p>23<sup>rd</sup> – Passed a restless night, with low delirium has had a little thin Sago with wine occasionally, but rejects almost everything as soon as swallowed. Tongue black &amp; parched, pulse at the wrist hardly perceptible, sinking fast.</p>
---	--	---	--

PA290194JPG		23 <sup>rd</sup> Dec <sup>r</sup> 1835 Died 11 A.M. Off Sheerness Therm. 50°	Vespere. – Continued much in the same state as at last report, sinking gradually, apparently without pain or uneasiness until 11 this forenoon when she expired, at 5 P.M. read the funeral service and buried the corps off Sheerness.
Venereal	5	Jane Marshall Ætat. 16 17 <sup>th</sup> Dec <sup>r</sup> 1835 Woolwich Therm. 51°  6 <sup>th</sup> Jan <sup>y</sup> 1836 Discharged Cured from List.	Has several large foul ulcers on the inner surface of the laterium pudendi, with a swelling in both groins. os palati seems also affected, says she has been taking medicine in Exeter Gaol, and was very ill when she was taken from that place to this ship. <i>Hab. Pil. Hydrarg. gr v. bis die</i> <i>Cataplasma commun. maneque nocte</i> <i>Bubo. applicator. Curat. ulcus more solito.</i> 4 <sup>th</sup> Jan <sup>y</sup> 1836 – Both swellings have been absorbed, ulcers looking cleaner. Mouth affected a little. <i>Intermitt<sup>r</sup>. pilula pro temporis</i> - continue ulcus application 6 <sup>th</sup> – Ulcus cicatrized, says she has no complaint. Discharged accordingly from List.
Pleuritis	5	Ann Powers Ætat. 25 Convict Jan <sup>y</sup> 16 <sup>th</sup> 1836 At Sea Therm. 62°  Off the Nore Lights (North Foreland Lighthouse?)  Therm. 51°	Complained yesterday morning of pains under the right breast, difficult breathing, cough & severe headache, bowels slow, of a weak & debilitated constitution; two Carthartic pills were given followed by $\xi$ ij Sol. Sulphis. Magnes which opened the bowels well, a blister was afterwards applied to the side, and the <i>Mist. Saline c. [ ] Antimon et Scillæ</i> , was administered during the night. today she breathes easier, and feels no pain in the side but when she coughs, skin moist, Bowels opened once this morning. Tongue clean, pulse 87, soft but full. Continue <i>Mist. ut heri.</i> Vespere.- At 4 P.M. as the difficulty of breathing returned, with the hard & frequent cough, $\xi$ xvj of blood was extracted from the arm which in a great measure relieved her. Cough still is troublesome but not so frequent. <i>Cont<sup>r</sup>: Mistura</i> 24 <sup>th</sup> Cough continues but not so troublesome, rested better last night. Bowels not opened. Tongue & skin moist, pulse 86 sound & more soft, and breathes comparatively easy, complains only of some uneasiness over the ensiform cartilage, no expectoration, blood drawn highly buffy says she is subject to this complaint whenever she is exposed to cold or wet. <i>Rx. Mist. Nitras Potassæ <math>\xi</math>vj Tinct. Scillæ <math>\xi</math>ijss, Tinct Opii gtt xxx <del>Mft</del> Mist. cochlear Magn. ij 2<sup>da</sup> que qua hora sumendus. Aq. Hordei pro potu.</i> Vespere – Short tickling cough, pulse small 98, skin soft. Tongue clean, Bowels not opened during the day. Catamenia appeared last night. <i>V.S. ad <math>\xi</math>xx</i> - before leaving her bedside, the cough had ceased and appeared much relieved. <i>Cont<sup>r</sup>. Mist. Nitras etc</i> 25 <sup>th</sup> Rested very indifferently, incoherent at times, cough but little during the night. Skin moist, Tongue clean & natural, pulse more full and naturally soft, ranging about 92, blood buffed. Bowels not opened. no expectoration. <i>Hab. Sol. Magnes Sulphate <math>\xi</math>ij 2<sup>da</sup> qua que hora donec alvus bene respond<sup>t</sup>.</i>
PA290195JPG			

PA290196JPG		<p>Off the Nore Lights (North Foreland Lighthouse?) Therm. 50°</p> <p>Off North Foreland Therm. 49°</p> <p>Discharged cured 10<sup>th</sup> Jan<sup>y</sup> 1836</p>	<p>26<sup>th</sup> – Bowels opened twice yesterday, cough &amp; respiration less troublesome until 4 A.M. when she again complained much of the cough and difficulty in breathing, with pain in the right side, pulse 100, soft &amp; regular, Tongue Clean. Skin soft. <i>Rx. Tinct. Opii M xxiv. Tinct. Scillæ zi. ft. haust. cum Aq. cinnam. ℥ij. stst. sumendus.</i> Therm. 25 ° <i>Emplast Lyttæ qua dolet imponere</i></p> <p>27<sup>th</sup> – Passed a good night cough easier and now expectorates freely, pulse 92, soft but weak, catamenia flowing a little, Tongue moist, skin soft, Bowels not opened, takes now a little thin Sago &amp; water gruel <i>Cont. Mist. Nitras potassæ ut antea</i></p> <p>28<sup>th</sup> – Breathes easy &amp; expectorates freely, no pain in the side on taking a full inspiration, Bowels slow. <i>Cont. Mist. Nitras potassæ</i></p> <p>Cough almost gone appetite returning little or no complaint but debility. Bowels regular. <i>Cont. Mist. Nitras potassæ</i></p> <p>5<sup>th</sup> Jan<sup>y</sup> 1836 – came up on deck a few minutes yesterday but continues very weak, appetite not so good these few days. B. regular, no cough, pain in the chest gone. <i>Rx. Sulph. Quinin. Gr v. Aqua ℥ijfs and Sulphur Nitrat gtt vj Mfti haust. bis die sumendus, omitt' Mist. Nitras potassæ.</i> to have a little preserved meat</p> <p>10<sup>th</sup> – no complaint disch<sup>d</sup> from List.</p>
Pleuritis	6	<p>Emma Marland Ætat. 19 5<sup>th</sup> Jan<sup>y</sup> 1836 At Sea Therm. 56 °</p> <p>14<sup>th</sup> Jan<sup>y</sup> 1836 Discharged cured.</p>	<p>Complains of severe pain under the right breast shooting backwards to the spine, takes a full inspiration with very little pain &amp; no cough, pulse 82, soft. Tongue clean and moist. Bowels regular. <i>Hab. pilula Colocynth. c. No. ij statim post hora ij. Sol. Sulphas Magnes ℥ij 2<sup>da</sup> qua que hora done alvus resp<sup>r</sup>.</i> <i>Emplast Lyttæ qua dolet imponat<sup>r</sup></i></p> <p>Vesperi- Blister not risen, complains very much of the pain in her side when she inspires, extending to the spine and right shoulder, pulse 96, Skin soft. Tongue clean. Bowels not opened. Thirst. V.S. <i>as ℥xxiv statim et Solut. Magnes Sulph. ut antea prescript.</i></p> <p>6<sup>th</sup> Pain in the side less, Blood drawn contains a great deal of serum but not buffed, complains now of the pain in the right shoulder being worst. Bowels opened frequently.</p> <p>7<sup>th</sup> – Complains most of the pain in the right shoulder. Bowels not opened sine yesterday, Tongue clean &amp; pulse natural. <i>Emplast Epigastric Scapula qua dolet imponend.</i> <i>Aq. Avenæ pro potu. No medicin.</i></p> <p>9<sup>th</sup> – Blister on the side nearly well, that on the shoulder dressed, no pain or uneasiness except from the blisters. Bowels regular.</p> <p>11<sup>th</sup> – Blisters nearly well no complaint otherwise.</p> <p>14<sup>th</sup> No complaint, says she is quite well. Discharged from List.</p>

<p>PA290197JPG</p> <p>Ulcus</p>	<p>7</p>	<p>Rachel Beckett Ætat 19 Convict 16<sup>th</sup> Jan<sup>y</sup> 1836 Therm. 63 in Shade</p> <p>Discharged cured 25<sup>th</sup> April 1836</p>	<p>Complained last evening of having had a fall and opened an old ulcer on the left Tibia four days ago, it looks foul &amp; discharging a thin ichorous sanies. Bowels confined. <i>Cataplasm Commun. bis in applicatur. hab. Haust. Purgans quam primun.</i> 20<sup>th</sup> Leg inflamed to a great degree, ulcer looking foul with a sanies discharge, edges ragged. <i>Hab. Pil. Calomel G rij omni nocte. Continur. Cataplasm ut antea</i> 4<sup>th</sup> Febr<sup>y</sup>. Mouth a little affected by the medicine, ulcer still unhealthy, discharge less but not contracting. B. regular <i>Omitt<sup>r</sup> pilula Calomel</i> <i>Rx. Nitras potassæ zifs Succ. Lemon. Žifs Saccha zij Aq. Žvj Mft Mist. Žv bis die sumendus</i> <i>Con. Cataplasm. ut antea,</i> to have flour in lieu of Salt Meats. March 10<sup>th</sup> Ulcer contracting &amp; clean, omitt<sup>r</sup> Cataplasm. Cont<sup>r</sup>.Mist. Curat. Ulcus c. Ungt. Resina bis die .25<sup>th</sup> April. Ulcer cicatured. Discharged from List</p>
<p>Scorbutis</p> <p>PA290198JPG</p>	<p>8</p>	<p>Julia Maria Cramp Ætat 23 Convict 25 Jany 11836 At Sea Therm. 82 °in Shade</p> <p>222<sup>nd</sup> Febr<sup>y</sup> Therm. 82 °in Shade</p>	<p>Of Leucophlegmatic habit, says she has been tapped for dropsy twice, her arms and legs are covered with petechial blotches, gums spongy &amp; bleed occasionally, teeth foul, breath fetid. Pulse and Bowels regular, incapable of moving her right arm. <i>Rx. Nitras potassæ zfs. Sacc. Lemonis Žj Sacchar zij. Aq. zij Mft haust. ter in die sumendus.</i> 26<sup>th</sup> - Blotches painful to the touch, no alteration otherwise, only the stomach seems irritable &amp; complains of headache. Bowels regular. <i>Cont. Haust.</i> 27<sup>th</sup> - Blotches rather decreasing but the arms and legs painful on pressure, had <i>Žij. Sol. Magnes Sulph.</i> last night. Bowels twice opened. <i>Cont. haust.</i> 28<sup>th</sup> - Irritability of the stomach gone but still some headache. Blotches disappearing. B. opened thrice, but scantily, had <i>Gr x Calomel &amp; Gr vj Extract Colocynth</i> last evening. <i>Cont. haust. Nitras potassæ etc.</i> 30<sup>th</sup> Bowels well opened these two days, pulse 87, soft. Tongue, coated, gums now healthy to appearance. Blotches stationary, complains much of the pain &amp; swelling of her wrist (right) very weak - <i>cont. haust,</i> to have soup. Right arm still very stiff. Legs and ankles swell very much during the day. Bowels rather confined. pulse 86, soft &amp; regular. Tongue still foul, complains of Dysuria, in other respects as last report. <i>Rx. Extract Colocynth c, Gr x. Hydra. Submur Gr vj Mft, Bol. stat. sumendus, post opus. contin. Haust. Antiscorbutic.</i> 5<sup>th</sup> Blotches completely disappeared as also the pain &amp; swelling of the ancles, that of the right wrist and arm continues, the arm seems powerless. B. slow again. <i>repef. Bol. Calomel &amp; Colocynth ut antea.</i> 7<sup>th</sup> - Swelling of the right wrist diminishing progressively, appetite pretty good. Bowels open. <i>cont<sup>r</sup> haust.</i> 11<sup>th</sup> - Seems to have no complaint, except a little stiffness in the right arm &amp; wrist, B. regular.</p>

		14 <sup>th</sup> Feb ° 1836 Discharged cured At Sea Them. 81 °	14 <sup>th</sup> Complains of a little pain in the wrist remaining, in other respects quite recovered. Discharged from List To have flour, raisins, etc in lieu of Salt Meat.
Fever	9	Ann Hampson Ætat. 22. Convict 24 <sup>th</sup> Feby 1836 At Sea Them. 79 ° shade	<p>Complained two days ago of pain and uneasiness with weakness across the lower lumber vertebrae which she ascribed to not having seen the catamenia for 3 months, a purgative mixture was prescribed at the time, and not having made her appearance again she was supposed to be well. – Today she complains of pain extending from the ensiform cartilage to the dorsal vertebrae with general lassitude &amp; debility, clammy perspiration &amp; extremities cold. Pulse 86 regular but weak, Tongue furred. Bowels opened twice. <i>Haust. Emetic q.p. [ ] postea. Emplast Lyttæ. part. affecta. applicator.</i></p> <p>25<sup>th</sup> – Passed a sleepless night, blister dressed, had a pill composed of <i>Hydrarg. Submur. Gr ij opii crud. Gr ¼</i> every three hours during the night. Bowels not opened today. Emetic acted partially complains still of pains in the epigastrium, pulse 90, sound &amp; regular. Tongue furred, Skin cold &amp; clammy, great depression of spirits with constant thirst. Rx. <i>Liquor. Ammon. Acetet. Mist. Camphora a a ʒvj Spirit. æther. Nitrat ʒj Tinct. Opii gt. xx Mfi. haust. stat. s.</i></p> <p><i>Continuent. pil. ut heri prescript. aqua hordie propotu ad libitum.</i></p> <p>At 3 o'clock this morning the pain in the right side being very much augmented but that in the region of the stomach less and accompanied with difficulty of breathing and incapable of resting on the affected side with a small pulse ranging about 100. Tongue foul. Sk. cold &amp; moist with considerable thirst. ʒxvj of blood was extracted from the arm, a blister applied over the part complained of. <i>Gr vj of Hydrarg Submur, &amp; left to rest.</i></p> <p>8A.M. 26<sup>th</sup> – Seems a good deal relieved, blood drawn in the first cup buffed, that in the second cup not. dressed the blister first applied. ## General Remarks

Between the 20<sup>th</sup> Nov<sup>r</sup> and the 10<sup>th</sup> Dec<sup>r</sup> 132 Female Convicts and 17 children were embarked at Woolwich on board the Transport "Arab" for passage to Hobart Town Van Diemen's Land. Viz. 32 women from Newgate and 8 children from Newgate, - 3, women from Lewis, - 4, from Worcester - 1, from Newington, - 1, from Oxford. - 1, from Hull, - 3, from Perth - 2, from Winchester, 3, & 2 children from Exeter - 2, from Knutsford. - 3, from Northampton. - 2, from Derby. - 1 from Dumfries. - 6, and 2 Children from Glasgow. - 5, from Edinburgh. 2, and 1 Child from Durham, - 13, from Salford, 13, from Kirkdale, - 9, from Liverpool. - 1, from Preston, - 3, from Leeds, - 2, from Sheffield. - 2, from Maidstone. - 1 from Leicester - 2, from Prestatyn, - 2, from Dorchester. - 4, and 1 Child from Warwick. - 1, and 1 Child from Newcastle upon Tyne, - 1 from Ilchester, - 1, from Bridgewater, - 2, from Stafford, - and 4, with 2 children from Aberdeen, in general good health with the exception of three, referring to cases, 3. 2.5. in this Journal, some complaints cannot be ascertained on their embarkation, by cursory inspection and enquiry nor can it be known until they can conceal it no longer. A few cases of Diarrhoea appeared at Woolwich when first embarked from their using the water closets alongside, which was checked by an Anodyne, - also a few of obstipatio, about 5 weeks after we went to sea, from rejecting their chocolate in the morning & using lemonade when this was served out, this I remedied by dividing the daily rations of Tea to serve morning & evening & less flour giving more Suet & raisons on Beef Days. Two persons were lost on the voyage, A woman & a child, the former 4 days after leaving Margate was delivered of a child in a putrescent state, the labor tedious, and having no expulsive pain after the birth the placenta consequently was retained, inflammation supervened and she died the 9<sup>th</sup> day, the latter a child 18 mos. old though reduced to a skeleton, on embarkation did not complain until the night before it expired.
